The addition of sugar to canned vegetables is not for preservative purposes. Added sugar increases the tendency to fermentation. It is added wholly as a condimental ingredient. Sodic nitrate plays a very important role as a beet fertilizer and upon general principles it may be admitted that (60 kilos may be used to the acre, half of which at the time of seeding as a surface dressing, the remainder in equal quantities just before the first and then before the second hoeings. The soil dressing under these conditions means that the plant food has been assimilated under the best possible conditions and there need be no apprehension of loss in case...

Reviews

This publication may be really worth a go through, and a lot better than other. It really is written in simple terms and never difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Natalie Abbott**

This book will not be simple to get going on reading but extremely exciting to read through. Yes, it can be playful, still an interesting and amazing literature. I am very easily could possibly get a delight of reading a written book.
