Excerpt: . . . disability claims as early in the application process as possible, with the expectation that DSI would reduce both appeals of denied claims and future backlogs. The plan involved several envisioned changes to improve the disability determination process. However, results of the initiative by early 2007 were mixed. ( See table 1 for examples of these initiatives and their results. ) In general, we found that implementation of these and other DSI initiatives were hampered by rushed implementation, poor communication, and inadequate financial planning. Overall, the DSI initiatives cost more than the agency had originally estimated. Table 1: Examples of DSI Initiatives and Their Results

Name of initiative	Description	Results
Quick Disability Determination Process	Used an automated screening function to accurate decisions and is identify cases that have a targeted for national roll-out high probability of being approved for expedited processing	Generally produced timely and
Federal Reviewing Official Replaced the Achieved	positive decision reconsideration level with accuracy and documentation; attorneys that review experienced staffing appealed initial decisions challenges; contributed to increased pending claims and processing times; cost more than originally estimated	Medical and Vocational Provided medical expertise
Experienced staffing Expertise Initiative	to the Federal Reviewing challenges; experienced Official difficulty entering into contracts with medical professionals; contributed to increased pending claims; cost more than originally estimated.	

Source: Based on information presented in GAO-08-40. The future of DSI currently remains uncertain. While the Quick Disability Determination will likely be implemented nationwide, SSA suspended national roll-out of most portions of the DSI initiative, and issued a proposed rule to suspend the Federal Reviewing Official and . . .
