In the year 2005, technology was persistent on the verge of exploration with exciting breakthroughs. Although it was Professor Michael Brendan s time to shine, his time was running out. His grant was with the stem cell s Nano-Bot reproduction program. Nana-bot s technology was what many called star trek mumbo-jumbo and a waste of good government money. Funny, have you ever heard of such a thing as bad government money? The Professor produced functioning nana-bots that could be programmed to repair anything needed, but they could not replicate or reproduce at any rate. This was essential for the use in human medicine and for use of the bots in the near future. Three days from the cancellation of his program, Professor Brendan decided to take a day off before the obvious failing of his occupation that he had embarked on nearly ten years before. Approximately an hour from his home, is a place known as Area 51, where an alien spaceship was said to have crashed in the late 50 s. However, we all know there are...

#### Reviews

An exceptional publication as well as the font applied was intriguing to learn. It usually does not charge an excessive amount of. Its been designed in an exceedingly basic way and it is just after i finished reading through this book through which in fact altered me, modify the way in my opinion.
