

Victorian Concepts in Kipling's 'A Matter of Fact'

By Guido Scholl

GRIN Verlag Nov 2008, 2008. Taschenbuch. Book Condition: Neu. 211x146x7 mm. This item is printed on demand - Print on Demand Neuware - Seminar paper from the year 2002 in the subject English Language and Literature Studies - Literature, grade: 1,8, University of Hannover, language: English, abstract: The Victorian period (1835-1903) describes an important time span in English history in social, political and cultural matters. Terms like 'splendid isolation' (in the field of foreign-policy) or 'laissez-faire' (in the field of economy) and the philosophical theories of Utilitarianism and Intuitivism were fundamental concepts to influence life in the 'Empire' in the second half of the 19th Century. During that time, the Industrial Revolution took place and the parliament was reformed three times (1830s - 1880s). The Victorian period can be seen as the most glorious time of colonial England (if one thinks of colonialism and imperialism as glorious) but ironically also marks the decay of the 'Empire', which many Englishmen had been so proud of. In the literary world, English Romanticism dominated the early Victorian decades. Later on, Realism and Naturalism became more and more influential and in the 1890s, the New Realism and Aestheticism (including Decadence and Symbolism) took over. One...

Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Ally Reichel**

This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You wont feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).
