BIRD BRAINS: THE INTELLIGENCE OF CROWS, RAVENS, MAGPIES, AND JAYS

Sierra Club Books, United States, 1997. Paperback. Book Condition: New. Revised.. 249 x 249 mm. Language: English . Brand New Book. Birds have long been considered the archetypal featherheads, beautiful but dumb. But one group of birds - the corvids, or members of the crow family - appears to have powers of abstraction, memory, creativity, and insight that put them on a par with many mammals, including, in some instances, higher primates. In an original and scrupulously researched text, Candace...

Reviews

Just no phrases to spell out. it was writtern very properly and valuable. I am very easily can get a delight of reading a written book.

-- **Eric Macejkovic**

The best ebook i actually study. I have got study and i am certain that i am going to going to study yet again again in the foreseeable future. I found out this ebook from my i and dad suggested this book to find out.

-- **Allison Heaney**

Basically no phrases to explain. It really is filled with knowledge and wisdom You are going to like how the author create this book.
