Aeternum Ray is a sweeping, yet intimate story of mankind's

renaissance that will appeal to fans of visionaries Isaac

Asimov, Gene Roddenberry and Ray Kurzweil. The novel is a

collection of emotional personal letters written by 240-year-old

William Babington to his newborn son Benjamin. Having lived

a full life, William has experienced everything from death to his

rebirth into the utopian Aeternum; an advanced computer

system shepherded by the omnipotent artificial intelligence

Ray. William pens the highlights of his existence, love, and loss

while reflecting on the centuries of wonder he has witnessed

firsthand. His humble letters form a detailed memoir that is

intertwined with humanity's greatest triumphs, the

technological singularity, and the solemn burden of surviving

Earth's darkest night of terror. Through the light and dark

times of the near future, Aeternum Ray departs from dystopian

themes and brings back the uplifting notion of utopian

speculative ideals. This item ships from La Vergne, TN.
