

Biogeochemistry of Ancient and Modern Environments

Filesize: 8.05 MB

Reviews

This written publication is fantastic. This can be for anyone who statte that there had not been a well worth reading through. I realized this pdf from my i and dad recommended this publication to discover.

(Maye Schoen)

BIOGEOCHEMISTRY OF ANCIENT AND MODERN ENVIRONMENTS

Book Condition: New. Publisher/Verlag: Springer, Berlin | Proceedings of the Fourth International Symposium on Environmental Biogeochemistry (ISEB) and, Conference on Biogeochemistry in Relation to the Mining Industry and Environmental Pollution (Leaching Conference), held in Canberra, Australia, 26 August - 4 September 1979 | This volume contains a selection of papers presented to the Fourth International Symposium on Environmental Biogeochemistry (ISEB), and a conference on Biogeochemistry in Relation to Mining Industry and Environmental Pollution (Leaching Conference), held in Canberra, Australia on August 26-31 and September 3-4, 1979, respectively. The ISEB were established to provide "a forum for uninhibited exchange of information and ideas among the biological, chemical, atmospheric and geological scientists working in the common area of biogeochemistry, encompassing soil and other earth sciences as well as the hydrosphere and atmosphere", By linking the fourth ISEB with the Leaching Conference the scope of discussions was extended to encompass the application of biogeochemical processes to the mining industry. This wide-ranging philosophy is reflected in the breadth and diversity of the subjects covered in this book. The published papers are expanded versions of those presented at the meetings. They have all been scrutinized by at least one referee in addition to the editors. About 20% of the contributions to the meetings are not included, either because authors did not wish to publish or because the papers were not accepted by the editors. | Opening address: An outside view of environmental biogeochemistry.- The Ancient Environment.- Early Development of Biochemical Systems.- Early biogeochemical systems: keynote address.- Precambrian genetics.- The universe of porphyrins.- Antiquity of photosynthesis: possible constraints from Archaean carbon isotope record.- Development of Atmospheric Oxygen and Ozone.- Oxygen and ozone evolution in palaeoatmospheres.- Past oxygen levels; some evidence from uranium deposits.- Timing and relationships among Precambrian crustal and atmospheric evolution and banded iron-formations.-...
