

Cambridge Scientific Minds

By -

Cambridge University Press. Paperback. Book Condition: New. Paperback. 352 pages. Dimensions: 8.9in. x 6.0in. x 0.9in. Since the scientific revolutions of the seventeenth century, a great number of distinguished scientists and mathematicians have been associated with Cambridge University. Cambridge Scientific Minds is a unique account of some of the University's most eminent thinkers over the last 400 years, including Isaac Newton, Charles Darwin, and James Clerk Maxwell. While the rapid establishment during the Newtonian era of a series of professorships for mathematics, chemistry, astronomy, anatomy, botany, geology, and geometry marked the University's scientific coming of age, this volume's chronological balance reflects on the increasing importance of science in the institution's recent history. Chapters on Paul Dirac, Alan Turing, Joseph Needham, and Stephen Hawking, among others, represent the recent intellectual efflorescence at Cambridge. Personal memoirs and historical essays, written by leading historians, scientists, and Nobel Laureates, make Cambridge Scientific Minds as enjoyable to read as it is accessible. Peter Harman is Professor of the History of Science at Lancaster University. He has published primarily on the history of physics and natural philosophy in the 18th and 19th centuries, the period from Newton to Maxwell. His previous books include Energy, Force and Matter...

Reviews

It is easy to read through easier to fully grasp. It had been written very completely and useful. I am pleased to let you know that here is the greatest book we have read during my personal life and could be the very best book for possibly.

-- Miss Marge Jerde

It is really a remarkable publication I actually have possibly study. It usually is not going to cost excessive. It's been written in an exceedingly basic way and is particularly only right after I finished reading this publication through which basically transformed me, affect the way I think.

-- Dr. Breana O'Kon
