Dr. Burke Templeton never intended to fall in love in with Owen West. He never intended to become a supervillain either, but an accidental infusion of dinosaur DNA will do that to a guy. Owen doesn't know that Burke is secretly the villainous Malaraptor. Unfortunately, Owen is the upstanding superhero Icarius, defender of Metro City. Malaraptor's team is bent on destroying the city. Icarius is bent on stopping them. Burke just wants to be with Owen. What's a supervillain to do? Intent on salvaging the relationship, Burke does what any villain would-he kidnaps Icarius. Can bad guy and do-gooder see beyond their ethical differences (and the really big teeth) and reach some kind of accord? As Burke discovers, morphing into a monster, fighting superpowered foes, and planning global domination are simple compared to the effort needed to win a hero's heart. Note: This book contains forced seduction. ** A Siren Erotic Romance.
